

Whitepaper

R1 Dt. October 11, 2021

1. Introduction

TAL is the world's first cryptocurrency to monetise the efforts involved in recruitment process and to help jobseekers monetise their skill level and value repeatedly until retirement from employment or consulting assignments. TAL tokens are provided for every jobseeker listed on the platform for every activity starting from Sign Up, get a referral agent to help in finding jobs and from employers who pay joining bonus, awards, rewards, gratuity for each year of serviced and the like activities so that the jobseeker accumulates significant crypto-wealth that may be exceedingly higher than the lifetime FIAT earnings.

1.1 Typical type of earnings for the Jobseekers through TAL supported dApps

Receive TAL Tokens upon registration of Resume at <https://www.cvmine.com> or CVMine Mobile app. You will receive up to 10,000 tokens depending on the level of profile and the month of registration

Refer jobseekers to CVMine and earn 20% equivalent TAL tokens allocated to referred jobseekers

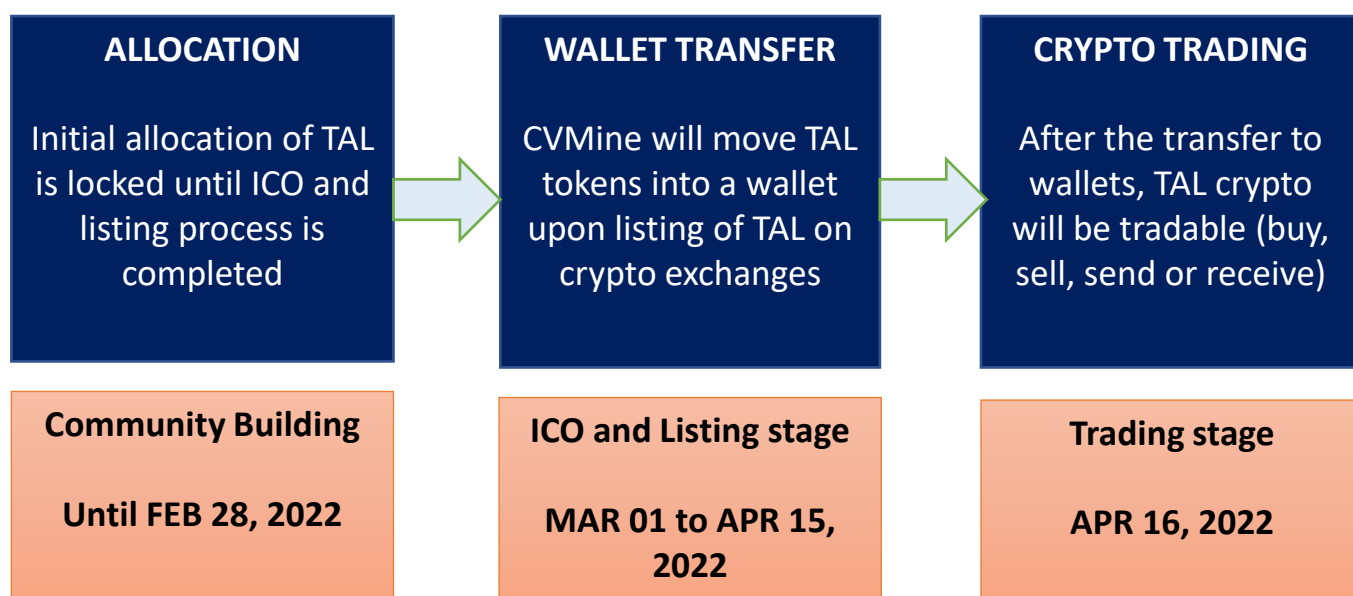

CVMine will assign a referral agent from iCanRefer dApp network as a dedicated career advisor to each jobseeker who will help in finding right jobs for life whenever the jobseeker want a better job. Referral agent will provide welcome TAL tokens and also joining bonus tokens whenever the jobseeker is placed in a job and earn TAL tokens from employers as placement compensation

Apply for direct jobs on CVMine and earn joining bonus from employers directly and also receive awards, rewards, gratuity for each year of stay as per the policies and allocation process of TAL supported employers

2. TAL token allocation, ICO and listing timelines

During the community building stage, allocated TAL tokens can not be traded, as the wallet will be locked until a significant level of community of jobseekers, referral agents and employers are acquired. All the TAL tokens allocated during this stage are locked until ICO is completed as per the planned timelines shown above unless there is a change in timelines. We are anticipating a much earlier listing of TAL cryptocurrency on exchange in case the jobseekers help in referring and building a larger network sooner than planned that will help in early listing of TAL on cryptocurrency exchanges. We are expecting at least one billion community to ensure we are the largest community in the world that also means a much higher appreciate for TAL cryptocurrency than any other currency in the world.

3. What will be the value of TAL tokens upon listing

It is not practically easy to predict the value of cryptocurrency during this early stage of cryptocurrencies across the world. However the value of a crypto token is driven its it community, purpose and number of transactions. As our community being jobseekers, workforce, referral agents and employers, there will be a significantly higher number of transactions than just buying and selling transactions on the blockchain network that improves the value of TAL Token. TAL is expected to be the largest community based cryptocurrency that helps people to build their crypto-wealth and hence it is highly noble in nature unlike other transactional cryptocurrency tokens/coins. TAL being a social token that empowers humanity, the social value is significantly high and accordingly the value is also expected to be high.

Note: This is not a recommendation or any advice but for entertainment and knowledge. Buyer is expected to take caution and own decision before investing in cryptocurrencies.

3. Let us build a valuable human community

Contribution to TAL community is highly noble, as it empowers the humanity to acquire a value that is much beyond their regular salary or other FIAT earnings. TAL team is proud to deliver this platform that uplifts the humanity and bring the required crypt-wealth to jobseekers and workforce across the world.

You may involve in the following forms with TAL Community

- Sign Up as a jobseeker on CVMine to earn TAL Crypto for life(Sign up and every time the jobseeker onboards TAL supported employer or through a referral agent)
- Sign up as a Referral Agent on iCanRefer dApp to help jobseekers in sourcing right jobs for life(until retirement)
- Sign up as an employer or a manpower agency on TALLITE dApp to hire the best workforce and contribute to TAL community

Write to us through <https://www.tal.social> for any further help or information.
